PRICE EXCLUDES TAXES, TITLE, LICENSE, \$399 DEALER PROCESSING FEE, & FINANCE CHARGES

- I CHOOSE THIS CAR BECAUSE WHAT I KNOW IS THAT BMW IS THE ONE OF THE EXPENSIVE CAR. — This car is incredibly fun to drive. With 240 HP, it accelerates nicely and can climb hills like no other. Great for driving in the mountains! The handling could not be better. The traction control keeps you from getting into trouble when you need it.

- Incredibly comfortable for a family, for short trips or long travel. Lots of space to haul gear. Great power, and handles like a car. Very safe, with AWD, lots of airbags and other features. Beautiful on the inside and out. I love the leatherette seating - easy to wipe clean, great to the touch, doesn't get too hot or cold, with heated seats for winter comfort! Great tuck-away storage compartments to keep organized. Very maneuverable in traffic and parking lots - tight "turn radius" for parking. BMW thought of every comfort, safety, and convenience, and packed it all into a fun, sporty, and versatile package! The ultimate driving machine.
